Re: New Patriotas Stamps
BN 19449

Dear Mr. Almeyda:

We send you herewith sketch showing a portrait of Jose de la Luz Caballero in connection with the New Patriotas Stamps. It is felt that this makes a very pleasing design which might be improved by changing the position of the denomination appearing in the upper left hand corner. It could be dropped down to a point where the top of the 3 would be on a level with the top of the hairline of Jose de la Luz Caballero. At the same time, the denomination could be brought in to the right so as to balance the margins of the background on both sides of it.

We would appreciate your comments on the design, particularly in reference to the suggested change stated above. Should you feel that this change is advisable we will either submit a new sketch or make the correction in the engraving as you see fit.

Kind regards.

Yours very truly,

EJG:EP

Mr. E. J. Garrity, Plant Manager,
Security Banknote Company,
Philadelphia, Pennsylvania.

Ref: Patriotas stamps BN 19449

Dear Mr. Garrity:

In reference to your letter of October 10th, I will, at a later date, submit a layout for the 400 stamps Patriotas.

I am also attaching herewith the sketch you sent us showing a portrait of "Jose de la Luz Caballero". You will note we have changed the position of the denomination and have dropped it down to be in line with the hairline of the portrait. We have also moved the portrait to the left to make room for the denomination. The denomination has, also, been enlarged in accordance with your suggestions contained in your letter of October 17th.

You may find the same pattern in all the denominations of this series which we will send you postcards in the near future. That is; placing the denomination either left or right of the face in accordance with the position where it appears.

I was away in Miami for a few days and was fortunate to be there when the hurricane hit the city.

With kind regards, I am,

Yours very truly,

B. Bernaza
